

Every bottle we make carries your trust...

Your Trusted Partner in Tablet & Supplement Packaging

Pharmaceutical and Nutraceutical packaging designed to protect, preserve, and perform...

About Aston Pack

Precision. Quality. Excellence.

When we started **Aston Pack**, we had one simple belief: **packaging should protect, not just contain**. Every bottle, every closure we create carries someone's health, wellness, or daily routine inside it—and that's a responsibility we take to heart.

What began as a small idea has now grown into a journey where **millions of people around the world unknowingly hold a piece of our work in their hands every day**. From **Nutraceuticals and Pharmaceuticals to Ayurveda remedies**, our packaging is there reliably, making sure products stay safe, protected, and ready when people need them most.

We've always believed that innovation is not just about design—it's about **listening, understanding, and creating solutions that truly serve people**. Sometimes that means shipping stock items quickly, other times it means working closely with a brand to bring a **custom idea to life**. In every case, our goal is simple: to be a **partner you can trust, not just a supplier**.

Because for us, it's not just about plastic. It's about **caring for the small details that shape people's everyday lives**.

**100% on-time
delivery**

4 HDPE Caps and Closures

The cap is the first thing your customer touches—and it's also the last line of defense for your product. That's why our **HDPE Caps & Closures** are engineered for **safety, freshness, and reliability**.

From **CRC caps that keep children safe**, to **Screw caps that make everyday use effortless**, every closure is paired with **Induction Wads** to lock in freshness and prevent tampering. With Aston Pack, you can be confident that what's inside stays exactly as it should—protected and pure.
